

Over 1,000 years of combined blow molding experience among our team.

ABOUT US

Since 1968, our family-oriented company has been committed to helping customers and successfully producing high quality blow molded products.

N.E.W. Plastics offers both injection blow molding and extrusion blow molding capabilities.

With over 220 team members and counting, N.E.W. Plastics Corp. continues to grow, think sustainably, and remain family-owned today.
